### Information about the service

#### What is the service?

Aussie Broadband's nbn<sup>®</sup> broadband service uses NBNC's infrastructure (e.g. Fibre To The Premises, HFC, Fibre To The Curb, or Fibre To The Node) to deliver broadband to your premises. These services provide the typical business download and upload speeds listed for each plan in the table above.

#### Where is it available?

These services are available anywhere where nbn<sup>®</sup> has been rolled out - for more details please you can visit <https://www.nbnco.com.au/learn/rollout-map>

#### What do I need to access the service?

- Where applicable, nbn<sup>®</sup> will need to install equipment on the outside and inside (near a power point) of your premises. A person over 18 will need to be at the premises for this appointment.
- You will also need an NBN-ready modem/router (see "equipment fees" on next page)
- FTTC customers only will also need an nbn<sup>®</sup> network connection device & HFC customers will need an nbn<sup>®</sup> Network Termination Device provided free of charge by nbn<sup>®</sup>.

#### Important note for FTTN and FTTC customers:

- Your copper phone line will be taken over by the connection. This means that you need to transfer to an IP phone service (internet-based phone) or you will lose your current landline phone connection.
- You may find that all the phone sockets within your premises are disabled

- If you have more than one phone line into your property, you can opt for nbn<sup>®</sup> on one line, and to keep your landline on the other, for a service fee of \$297. Please be aware that this second line will be shut down in 18 months from the time nbn<sup>®</sup> went live in your area.

#### What is included?

Features of this service include:

- Static IP address
- Unlimited Data

#### Minimum term of the service

This service is month-to-month with no fixed term.
